

MEMOIRS OF THE FACULTY OF ENGINEERING
OKAYAMA UNIVERSITY

Volume 36, Number 1, December 2001

CONTENTS

	<i>Page</i>
<i>Department of Mechanical Engineering</i>	
Observation of Orientation Change During Plastic Deformation of Polycrystalline Copper by EBSD Method	1
Ryouji KONDOU, Takeji ABE, Naoya TADA and Ichiro SHIMIZU	
Microscopic Observation of Tensile Deformation Behavior of Polycrystalline Titanium with Scanning Probe Microscope	7
Yan LI, Takeji ABE, Naoya TADA and Masanori KANAZAWA	
<i>Department of Electrical and Electronic Engineering</i>	
Application of Dead Beat Control method to the Water Level Control of Small-scale Hydroelectric Power Plant	17
Shinichiro ENDO and Masami KONISHI	
Modeling uncertainty for unknown modal parameters in large flexible structures	29
Jun IMAI and Kiyoshi WADA	
Structure and Cohesive Energy of Large Spherical Coulomb Clusters	41
Hiroo TOTSUJI, Tokunari KISHIMOTO, Chieko TOTSUJI and Kenji TSURUTA	
English Methodology Through Small-Scale Technical Engineering Projects	51
Chico Vaillancourt	
<i>Department of Information Technology</i>	
Model Selection for Geometric Fitting : Geometric AIC and Geometric MDL	59
Kenichi KANATANI	
Evaluation and Selection of Models for Motion Segmentation	79
Kenichi KANATANI	
Comparing Optimal 3-D Reconstruction for Finite Motion and Optical Flow	91
Kenichi KANATANI and Naoya OHTA	
Automatic Detection of Circular Objects by Ellipse Growing	107
Kenichi KANATANI and Naoya OHTA	
<i>Department of Bioscience and Biotechnology</i>	
Improvement of Biocompatibility of Silicone Elastomer by Surface Modification	117
Yuki SHIROSAKI, Kanji TSURU, Satoshi HAYAKAWA, Akiyoshi OSAKA and Seisuke TAKASHIMA
