Abstract:

In accordance with revised the Course of Study for Kindergarten in 1998, Handbook of the Course of Study for Kindergarten is notified that team teaching is the one of the methods to realize enhancing system of mutual cooperation among teachers and managing in details. One teacher for a class is popular as management of class at kindergarten over the years. However, taking into consideration of various needs towards kindergarten, it is not likely to cover individuality of character for each young child. This essay defines controversial points of one teacher for a class teaching and examines the educational validity of introduced team teaching as one of the breakthroughs.
