Earth Science Reports

Vol. 22, No. 1, 2015

CONTENTS

◆

- The effect of the seismic attenuation on the S-wave polarization anisotropy
Hitoshi ODA 1
- Application of simulated annealing to focal mechanism determination
Masanao KOMATSU, Hiroshi TAKENAKA 9
- Petrography of foundation stones of the Bizen Kokubunji Temple, Okayama
Prefecture, Japan —an attempt to identify their collected site—
Shigeyuki SUZUKI, Norihide NISHIMURA, Yuji ARIGA 25
- Facies analysis of the Jito Formation (Upper Triassic Nariwa Group) in
Jito Area, Kawakami, Okayama Pref., SWJapan.
Yuto MASAOKA, Shigeyuki SUZUKI 31
