

Anonymized data set

n = 93,730

Men

n = 45,057

Women, aged under 40 or 70 and over

n = 28,100

Women, no age available

n = 49

Included participants

n = 20,524

Hospitalized or institutionalized

n = 358

Above status unknown

n = 405

Not independent

n = 148

Outpatients with cancer

n = 238

Outpatients with pregnancy or puerperium

n = 12

Eligible participants

n = 19,399

Participation in cancer screening unknown

n = 1,288

K6 total score unknown

n = 3,478

Available for analysis

n = 15,423
