

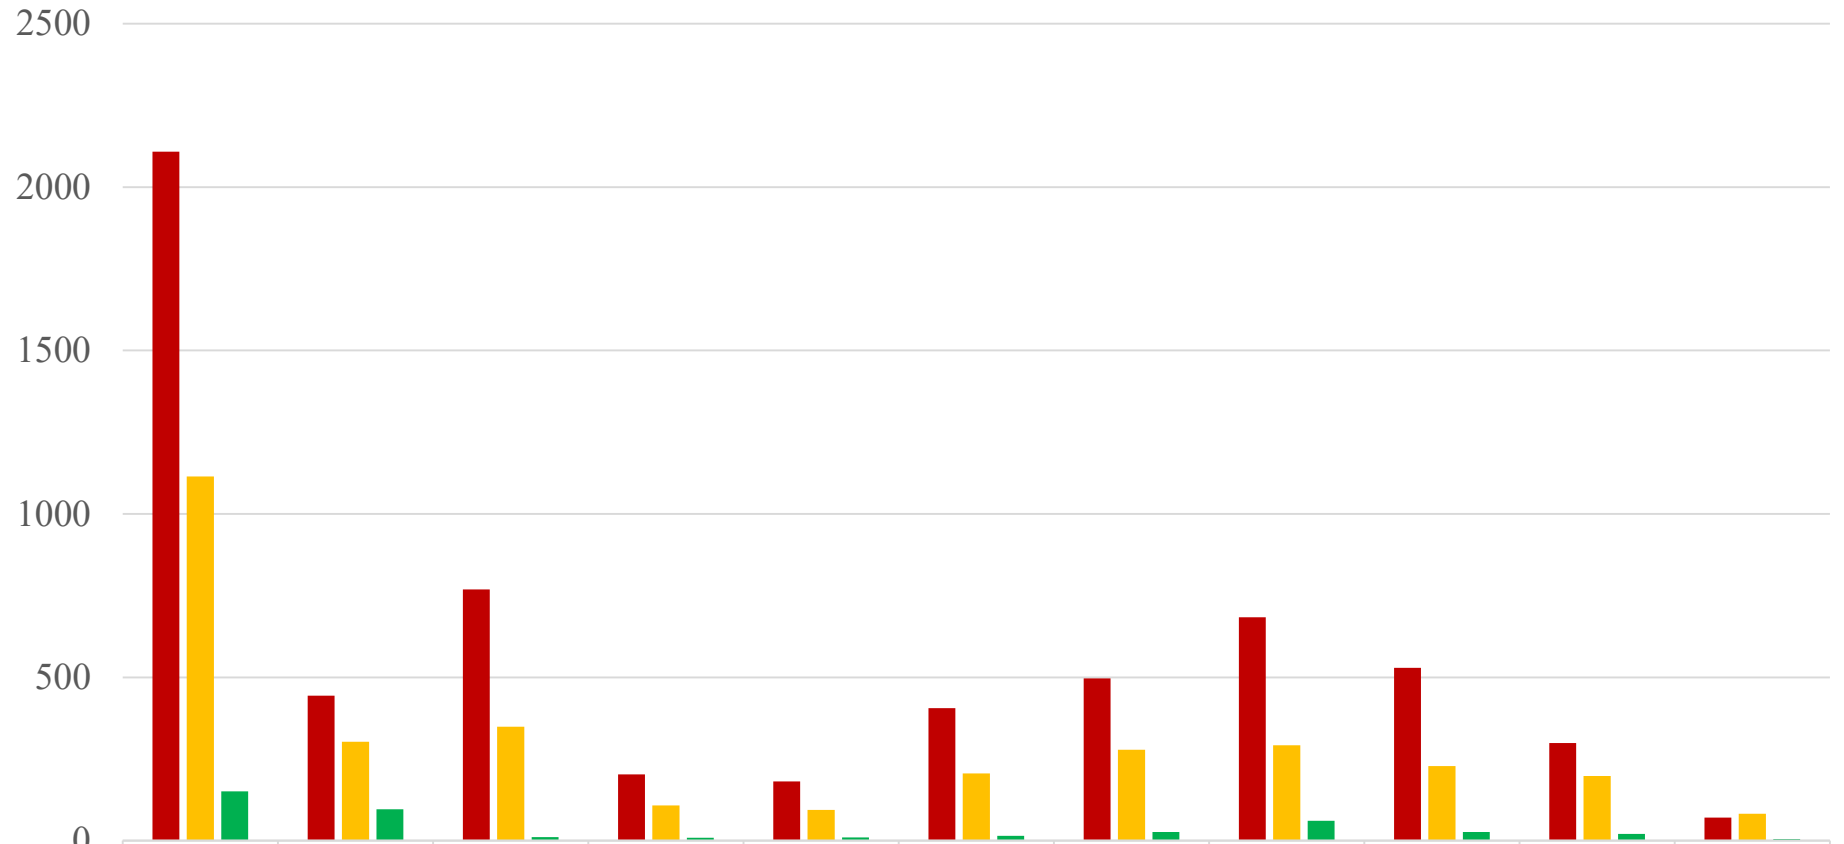

**Figure 1. Intentions for COVID-19 Vaccination by Occupational Category: 2024–2025 Season**

	Overall	Medical doctors	Nurses	Medical staff	Dental doctors	Officers	20s	30s	40s	50s	60-64 years
■ No intention for vaccination	2109	444	769	203	181	406	497	684	529	299	71
■ Undecided (currently under consideration)	1115	303	349	108	94	206	278	292	228	198	83
■ Planning to receive vaccination	151	96	11	9	10	15	27	61	27	21	5

By Occupation

By Age

**Figure 2. Determinant Factors Associated with COVID-19 Vaccination Hesitancy**

- High vaccination costs
- Concerns about vaccine safety (including adverse reactions)
- Uncertainties about vaccine efficacy/necessity
- Inconvenience of scheduling/lack of time
- Unable to receive due to allergies or underlying medical conditions

**Figure 3. Acceptable Self-Pay Costs for COVID-19 Vaccination by Occupational and Age Category**
